

Torexe : Service receive rotations for single setter system

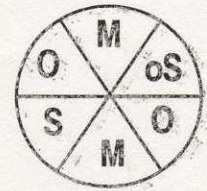

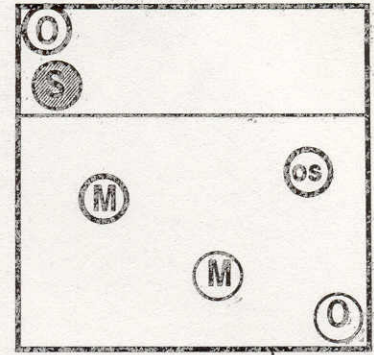

Rotation 1

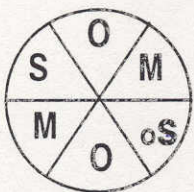

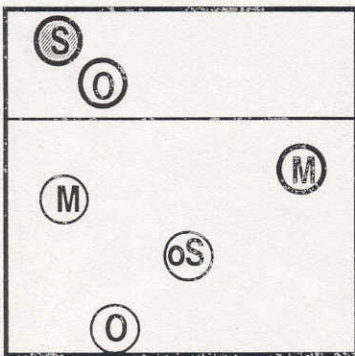

Rotation 6

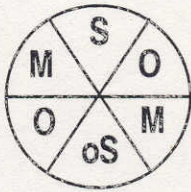

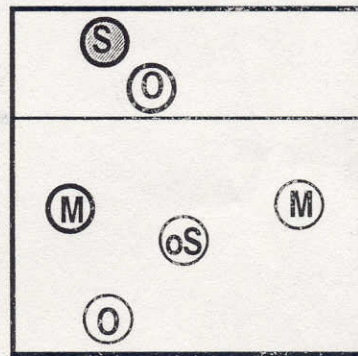

Rotation 5

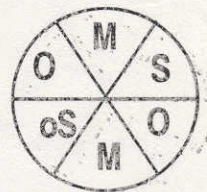

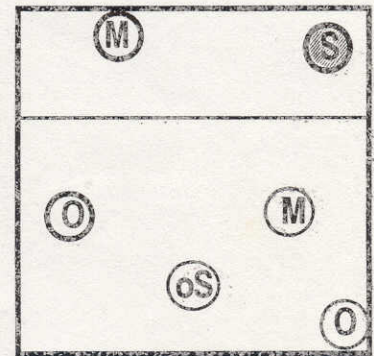

Rotation 4

Rotation 3

Rotation 2

These are the main objectives of this rotation system

- 1) To get the setter to position 2₁ to 3 quickly and with as few a people in his way as possible .
- 2) To try and get the front court players off the net to improve the chances of making an attacking approach.
- 3) To allow a three receiver system to operate with the least possible obstructions between the ball and receivers.
