# The Torexe Net Numbering System

The Torexe net numbering system, divides the net up into a two digit grid system. The first number called e.g. 5 represents the horizontal position with reference to the net or the current position of the setter. The second number called e.g. x1 represents the height of the ball above the net. See examples 51 & 22 below.

Ball positions with reference to the net

6x   5x   1x

x3

x2

x1   E.G. Ball position 51

Out Side Hitter   Reverse Hitter

Ball positions with reference to the Setter

4x   3x   2x

Setter   E.G. Ball position 22

1m

Note: 4x is always 1m from the setter.   Middle Hitter   Reverse Hitter
